General assumptions of our project:

The main objective of the project is to intensify cluster collaboration and preparatory actions for the establishment and shaping of European Strategic Cluster Partnerships (ESCPs). Expected results and deliverables of project are:

- joint internationalisation strategy plan,
- Partnership Agreement,
- implementation roadmap.

Possible actions:

- Identification of initial strategic partners across Europe
- Partnership building
- Legal advice for developing a legal representation for the consortium
- Promotion
- Intelligence gathering
- Joint actions planning

Established project partnership: lead partner - North-South Logistics & Transport Cluster (Poland), Innovation Cluster of Knowledge in Asturias (Spain).

We are looking for partners who meet the eligibility criteria:

1. independent legal entities representing a cluster or business network from EU Member States or countries participating in the COSME programme
2. registered on the European Cluster Collaboration Platform with a detailed profile of its cluster or network - <http://www.clustercollaboration.eu>
3. fit the definition of 'innovative clusters', it means groupings of independent undertakings - innovative start-ups, small, medium and large undertakings as well as research organisations — operating in a particular sector and region and designed to stimulate innovative activity by promoting intensive interactions, sharing of facilities and exchange of knowledge and expertise and by contributing effectively to technology transfer, networking and information dissemination among the undertakings in the cluster.
